

FerroActiv H32 it is an IRON CHELATE formulated with GS and GD technology (the granules are 100 % water soluble and dispersible), easy assimilation, which means an efficient and fast control of the ferric chlorosis.

FerroActiv H32 is **EC fertilizer** (Fe chelated by EDDHA) formulated with the optimal combination of ortho-ortho EDDHA (it guarantees maximum stability and persistence of the product in soil) and ortho-para EDDHA (quick iron release; shock effect)

Declared content

| Total soluble Iron | Chelated Iron [o-o]EDDHA (1) | Chelated Iron [o-p]EDDHA (2) |
|--------------------|------------------------------|------------------------------|
| 6.0 % | 3.2% | 1.6 % |

(1) Official o-o-EDDHA method (UNE-EN 13368-2)

(2) Official o-p- EDDHA method (UNE-EN 15452)

Characteristics

Ferric complex sodium ortho-ortho and ortho-para EDDHA

CAS Reg. N°: 84539-55-9

EC N°: 283-044-5

Bulk density = 0.65 – 0.75 g/cc.

pH (1% in water) = 7.5 – 9.5.

pH interval for a good stability (efficiency) of the product: 3 - 11

Solubility: 300 g/l, maximum working solubility 120 g/l at 20 °C.

Shelf-life: 5 year

Packaging: Aluminum bags of 1, 5, 20 and 25 kg. Contact our commercial department for other kind of packaging.

| Crop | Dosage g/tree | Treatment period |
|---|------------------------|--|
| Fruit and Citrus Trees | | |
| Breeding of plants | 3 - 5 | Fruit tree and Vine Crops Apply by the end of winter or beginning of spring, matching up with start of new sprouts. Citrus / fruit and other evergreen crops One application during the spring or at the beginning of the summer, before the second sprouting |
| Seedlings | 5 - 15 | |
| Young trees | 15 - 25 | |
| Producing trees | 25 - 50 | |
| Very grown trees and affected by the ferric chlorosis | 50 - 100 | |
| Vineyard | | |
| Young stocks | 3-5 | |
| Producing stocks | 5-10 | |
| Grapevine | 10-25 | |
| Horticultural and Ornamentals Crops | | |
| Beginning of seasonal growth | 1 - 2 g/m ² | Apply from the beginning of crop or after uprooting. |
| Full growth | 2 - 5 g/m ² | |

To be used only where there is recognized need. Do not exceed the appropriate dose rates. Respect the use conditions.

Keep out of children's reach. Keep away from food, beverage and feed. Keep packaging tightly closed in a well-ventilated, cool and dry place. Product sensitive to temperature and moisture. Avoid contact on skin and eyes.

Deretil Agronutritional S.L. guarantees the contents and formulation indicated in the data sheet and label but not mixtures or manipulations carried out with the product. In case of mixture or combination with other products it should be previously tested for compatibility.
